Statistical sheet for divorce DIV-1	26

A brief History

During the years 1921-1939, Divorces are collected primarily from religious institutions and very few civil courts.

After 1951, data are collected through individual questionnaire which then are processed and gained the **final** data, according to permanent residence and the time when the event happened.

In January 2004, DPS reactivates the rest of the SSV-divorces.

Data source

Units reporting for Divorces are District courts.
