Statistical Agency of Kosovo (SAK), namely the Department of Economic Statistics and National Accounts, in 2008 began the research for hotel operations in Kosovo. During 2009, SAK has begun with the hotel publication on a quarterly basis. This publication presents a statistical summary of statistical data from hotel activity in Kosovo. Another data source is the Ministry of Trade and Industry (MTI), Department of Hotel and Tourism.

Based on continued demand from various internal and external users, and based on indicators published by Eurostat, which publishes the statistics for the hotel, we have presented data of interest.

The purpose of the publication is to highlight the development trend of this economic activity in Kosovo. This publication will serve as a useful reference base for all users of SAK statistical data, and as a useful and relevant information for the Kosovo economy.

We thank the SAK regional offices, the willingness of all hotels, and sincere cooperation of the Ministry of Trade and Industry (MTI), namely the Department of Hotel and Tourism.

You can send your remarks, proposals and suggestions in email address:

Methodology

Statistical Agency of Kosovo (SAK) publishes data on Kosovo hotels for Q3 2011. Statistical information regarding the hotel and tourism activities are taken from statistical research organized throughout the country through regional statistical offices (total of 7).

Based in the SAK statistical program, data are obtained on the number of hotels, number of employees, the capacity for accommodation (rooms, beds), number of visitors and nights of stay by month, and foreign visitors by country.

Coverage

The number of surveyed hotels was 103 of 170 that are licensed in the Ministry of Trade and Industry, Department of Hotel and Tourism. However, not all of this number (170) responded to our request for data/records. In this publication are not included: a hotel in Pristina, one of Podujeva and hotels of the municipality of Shterpce and some of the hotels that at the time of privatization were in the renovation phase and are considered inactive. Also not included are hotels and motels without a license and which practice this activity, but that are in the ongoing procedure for obtaining the license and in the future will be part of this survey.

Definitions

Hotel

Hotel is an enterprise unit which in the business register is registered as hotel activity. Also, private hotel units are included in this group. Depending on the services that perform, these units are divided into hotels, motels, etc.

Tourism

Tourism comprises the activities of persons traveling and staying in different places than the place of their usual residence for a period not longer than one calendar year and the purpose of this trip is leisure, business or other.

Visitor

Is called a person who stays at least one night in a hotel facility in the country that he/she visits. For the purposes of tourism statistics, the term "visitor" represents a "person" who travels to a different place from where he/she lives, for a period less than 12 months. He/she can be resident (local) or non resident (or foreign).

Resident visitor is a person with permanent residence in Kosovo, which stays for at least one night in a different place in Kosovo.

Non resident visitor is considered a person with permanent residence abroad, but who stays temporarily in Kosovo for at least one night.

Based on data which possesses the Ministry of Trade and Industry (MTI) Department of Hotel and Tourism, as well as SAK, it appears that in all Kosovo municipalities the hotel activity is exercised by 170 licensed hotels, but not all of this number has answered in the quarterly survey from the Statistical Agency. Cities that have the most hotels surveyed are: Pristina, Gjilan, Prizren and Peja.

Statistical Agency of Kosovo

short description

Statistical Agency of Kosovo is a professional institution which deals with collection, processing and publication of official statistical data. As such acts since 1948 and has passed through several historical stages, structured according to state regulation of those times.

On 2 August 1999, the Agency has resumed his professional work (after nine years of interruption of all statistical series detrimental to the interest of Kosovo), as an independent institution under the Ministry of Public Administration. Since 12.12.2011 the Agency operates in the frames of the Prime Minister's Office. Office is funded by the Kosovo Consolidated Budget, but also by donors for specific projects and for technical professional support.

Statistical Agency of Kosovo acts according to the Law No. 04/L-036 which entered into force on 12.12.2011. Strategic development plan 2009-2013 is the middle term implementation for the development of statistical system in correlation with the European Union statistics (EUROSTAT).

Statistical Agency of Kosovo has this organizational structure: production departments; (Department of Economic statistics and National Accounts, Department of Population statistics, Department of Agriculture and Environment statistics and Department of Social statistics. **Support Departments;** (Department of Methodology and Information Technology, Department of Administration. **Within the Agency we also established** Office of the Population Census, Huseholds and Dwellings. **Regional Offices;** Gjakove, Gjilan, Mitrovica, Peja, Prizren, Pristina and Ferizaj

Number of employees and budget are still limited. Employees are total of 134 workers, of them 96 (71.6%) at the headquarters of the Agency, while in the Regional Offices, 38 (28.4%), with qualifying structure, 65.4% with university education to 34.6% with secondary education.

We have professional and technical cooperation with all ministries of the Government of Kosovo, especially with the Ministry of Economy and Finance, Central Bank of Kosovo, with international institutions, EUROSTAT, International Monetary Fund, World Bank, Sweden's SIDA, DFID, UNFPA, UNDP, UNIVAF, and with the statistical institutions of the countries in the region.

Statistical Agency of Kosovo almost completely covers the territory of Kosovo, based on the statistical structure of the enumeration areas as the basic unit and sole in the country from which it gets first hand information. All surveys conducted in the field use the extension of the samples in these enumeration areas but also a statistical methodology according to international recommendations. During the collection of statistical data and reports from reporting entities are involved professionals, technicians, administrators, servants of the country offices, field enumerators from regional offices, etc.

We have successfully implemented the project of Population Census, Households and Dwellings in 2011, Census that was not carried out since 1981. Results obtained from the Census will have an important role in compiling the development policies.

The mission of the Agency; to meet the needs of users with qualitative statistical data, objective, in time and space so that users have reliable base to conduct regular analysis in the interest of planning and project development at the municipal and country level. To support government institutions, scientific institutes, research academies, businesses in order to provide proper information for decision-makers and other users in Kosovo.
