Statistical Office of Kosovo (SOK), namely the Department of Economic Statistics and National Accounts, in 2008 began the research for hotel operations in Kosovo. During 2009, SOK has begun with the hotel publication on a quarterly basis. This publication presents a statistical summary of statistical data from hotel activity in Kosovo. Another data source is the Ministry of Trade and Industry (MTI), Department of Hotel and Tourism.

Based on continued demand from various internal and external users, and based on indicators published by Eurostat, which publishes the statistics for the hotel, we have presented data of interest.

The purpose of the publication is to highlight the development trend of this economic activity in Kosovo. This publication will serve as a useful reference base for all users of SOK statistical data, and as a useful and relevant information for the Kosovo economy.

We thank the SOK regional offices, the willingness of all hotels and sincere cooperation of the Ministry of Trade and Industry (MTI), namely the Department of Hotel and Tourism.

All surveys conducted in the field use the extension of the samples in these enumeration areas but also a statistical methodology according to international recommendations. During the collection of statistical data and reports from reporting entities are involved professionals, technicians, administrators, servants of the country offices, field enumerators from regional offices, etc.

We are in intensive final preparations for the implementation of major project for the state of Kosovo; Population Census, Households and Dwellings who will now take place from 1- 15 April 2011, now delayed Census which has recently been in 1981. In this major project we have engaged academics, scientists and local and international experts in all working groups.
