

Research on the General Data for Socially Owned Enterprises 2002

The Statistical Office of Kosovo (SOK) conducted the first research work on the 2002 general data for Socially Owned Enterprises (SOE) in Kosovo during September 2003. The aim of this inquiry is to collect comprehensive data for the entire SOE. This includes employment by gender, salaries by occupation and value, and cost of production by economic activity for all the country and for each of the seven regions of Kosovo. There was a real need for economic statistical data from those SOE as their activities were covering most main economic activities, such as agriculture, mining, manufacturing industry, electricity and water, construction, transport, trade and services.

Due to the absence of any statistical frame within the SOK, the Kosovo Trust Agency (KTA) provided a detailed list of all operational and non-operational SOE's. Further cooperation between SOK and KTA was extended to update that list by the regional offices of both institutions. On the field, the survey covers all SOE's and the large Publicly Owned Enterprises, in total 550 enterprises of which 354 were fully or partially operational, 152 were non-operational or non-responding or non-cooperative in filling the questionnaire. On the Serbian areas of Kosovo there were 54 SOE's; however, only 10 operational enterprises responded with full economic data.

In analyzing the output data of each SOE, some values and numbers were found missing or non-logical in some small numbers of SOE's. Averages, from the same economic sector, were estimated and used to correct or fill the gaps. This was especially obvious in estimating variables such as average salary and productivity per worker and per industry and the gross and net value added.

The SOK, at this stage, decided to publish the main summary results of the economic data for all SOE's in these selected tables. The team that supervised the whole research work and produced and presented the first set of tables was lead by Dr. Shakir Issa, the Economic Statistics expert, and team of National Accounts.

Prishtina, September 2004

Hysni Thaçi
Acting CEO, SOK
