## Foreword

Department of Social Statistics, the Sector of Jurisprudence Statistics publishes data of jurisprudence, with the aim to provide the users with comprehensive statistical data.

Statistical publication of the Sector of Jurisprudence Statistics 2010 contains data on these indicators:

- a) Juveniles indicted of criminal offenses by Municipal and District courts,
- b) Juveniles convicted of criminal offenses by Municipal and District courts,

The data are related to juvenile perpetrators of criminal offences according to gender, nationality, motion for prosecution, means of resolving the indictment and the type of conviction or sentence.

All published data are given according to the relevant chapter of criminal cases and articles. Data are published on the country level.

Interested to be granted with these data according to specific criminal offences of Municipal and District courts can forward their request in Jurisprudence Statistical Sector of the SOK.

Statistical Office of Kosovo (SOK) thanks the statistics sector of the Kosovo Judicial Council for cooperation and provision of data collected by the courts.

References for the perpetrators of criminal offences are Municipal and District courts and the data on the minor offence perpetrators are administrative data provided by the Kosovo Judicial Council (KJC).

Users are welcome to praise, make remark and/or any proposal regarding the content of this publication.

Remarks and comments can be sent to the email address [social@ks-gov.net](mailto:social@ks-gov.net) and they will be considered in enhancing the quality of publication in the future.

# Statistical Office of Kosovo

## *short description*

**Statistical Office of Kosovo** is a professional institution which deals with collection, processing and publication of official statistical data. As such acts since 1948 and has passed through several historical stages, structured according to state regulation of those times.

On 2 August 1999, the Office has resumed his professional work (after nine years of interruption of all statistical series detrimental to the interest of Kosovo), as an independent institution under the Ministry of Public Administration. Office is funded by the Kosovo Consolidated Budget, but also by donors for specific projects and for technical professional support.

**Statistical Office of Kosovo** operates under Regulation 2001/14 which entered into force on 2 July 2001. Law on official statistics is in process for approval. Strategic development plan 2009-2013 is the middle term implementation for the development of statistical system in correlation with the European Union statistics (EUROSTAT).

**Statistical Office of Kosovo** has this organizational structure: production departments; (Department of Economic statistics and National Accounts, Department of Population statistics, Department of Agriculture and Environmental statistics and Department of Social statistics. **Support Departments;** (Department of Methodology and Information Technology, Department of Administration. **Within the Office we also established** Office of the Population Census, Huseholds and Dwellings. **Regional Offices;** Gjakove, Gjilan, Mitrovica, Peja, Prizren, Prishtina and Ferizaj

Number of employees and budget are still limited. Employees are total of 134 workers, of them 96 (71.6%) at the headquarters of the Office, while in the Regional Offices, 38 (28.4%), with qualifying structure, 65.4% with university education to 34.6% with secondary education.

We have professional and technical cooperation with all ministries of the Government of Kosovo, especially with the Ministry of Economy and Finance, Central Bank of Kosovo, with international institutions, EUROSTAT, International Monetary Fund, World Bank, Sweden's SIDA, DFID, UNFPA, UNDP, UNIVEF, and the statistics of countries in the region.

Statistical Office of Kosovo almost completely covers the territory of Kosovo, based on the statistical structure of the enumeration areas as the basic unit and sole in the country from which it gets first hand information. All surveys conducted in the field use the extension of the samples in these enumeration areas but also a statistical methodology according to international recommendations. During the collection of statistical data and reports from reporting entities are involved professionals, technicians, administrators, servants of the country offices, field enumerators from regional offices, etc.

We have successfully implemented the project of Population Census, Households and Dwellings in 2011, Census that was not carried out since 1981. Results obtained from the Census will have an important role in compiling the development policies.

**The mission of the Office;** to meet the needs of users with qualitative statistical data, objective, in time and space so that users have reliable base to conduct regular analysis in the interest of planning and project development at the municipal and country level. To support government institutions, scientific institutes, research academies, businesses in order to provide proper information for decision-makers and other users in Kosovo.
