Foreword

The publication Health Statistics in Kosovo for 2008 includes statistics on public sector health care in Kosovo in 2008. Source of data of this publication is the National Institute of Health (IKH) and the Ministry of Health (MOH).

This publication contains the following data:

- Number of health institutions, the total number of employees according educational, gender and ethnicity.
- The number of employees in the Family Medicine Center (FMC),
- Primary Health Care (PHC) by departments and municipality,
- The activities of regional hospitals,
- Volume indicators of quality in regional hospitals,
- Activities of the University Clinical Center of Kosovo (UCCK),
- The data on morbidity in UCC,
- Basic indicators,
- The structure groups of diseases by SNC -10 recorded in PHC, etc.

We believe this publication will serve as useful information about health sector.

We invite all users of this publication to provide comments, remarks and proposals to this address: social@ks-gove.net

For the preparation of this publication contributed:

MA. Sc Bashkim Bellaqa - Director of department of social statistics,
Ms. Luljeta Selimi - Senior officer for health statistics.
Ahmet Cakolli – Officer for design

Prishtina, April 2010

Chief Executive Officer, SOK
Prof. dr. Nait Vrenezi

Statistical Office of Kosovo, a brief description

The Statistical Office of Kosovo (SOK) is a professional office operating since 1948. The SOK passed through some of the historic phases and was structured by the state rule of that time. SOK restarted its work on August 2, 1999, as an independent and professional office working in the frames of the Ministry of Public Administration (MPA). SOK is financed by the Kosovo Consolidated Budget and by donors for the various projects.

The Statistical Office of Kosovo acts pursuant the UNMIK Regulation 2001/14 that entered into force on July 2, 2001. A medium-term Master Plan is being developed for the statistical system of Kosovo compatible with the European Statistics.

The SOK Organization Structure; composes of four departments for production of statistics (Department of Economic Statistics and National Accounts, Department of Population Statistics, Department of Social Statistics and Department of Agricultural and Environment Statistics), seven Regional Offices (located in Gjakova, Gjilan, Mitrovica, Peja, Prizren, Pristina and Ferizaj), two support departments (Department of Methodology and Information Technology, and Department of Administration), as well as the Office of the Population Census.

Total number employees is 134, of them 96 (71.6%) within the SOK offices whilst 38 (28.4%) in regional offices.

There is also a support and cooperation with the international institutions.

The Statistical Office of Kosovo covers Kosovo entirely. For implementation of the surveys in the field, the SOK uses appropriate sampling and methodology approach. In the collection of the reports from the reporting units, the SOK engages professionals, technicians, administrators and civilians from the local offices and regional field population census.

Recently, a team of national and international experts is working in the project of the population census.

SOK Mission is to fulfill the needs of the users with the reliable statistical data and with regular analyses in order to support and provide government departments with the proper information for decision-making process including other users as well.
