Preface

Kosovo Agency of Statistics (KAS), publishes final results derived from 2011 Population, Households and Housing Census conducted from 1 to 15 April 2011, based on the state on March 31, 2011 at 24:00 pm (census critical moment) by agricultural activity.

Tabulated data is presented at the level of Kosovo municipalities.

Tables contained in this publication are “made,” “extracted,” “created,” directly from electronic database, after necessary processing of coherence and formal, technical, tabular and graphical processing.

Data users should consider methodological explanations that are necessary to understand and interpret the data correctly.

In case of using this data the source shall be cited.

A handwritten signature in blue ink, which appears to read 'Isa Krasniqi'. The signature is fluid and cursive.

METHODOLOGICAL EXPLANATIONS

Under the Law on Population, Households and Housing Census 2011, no. 03/L-237 adopted on October 7, 2010 by the Assembly of Kosovo, the Census has been conducted from 1 to 15 April 2011 based on the state on March 31, 2011 at 24:00. (Census critical moment).

In this Census have been included agriculture holdings with usual residence (permanent) in the Republic of Kosovo.

In case of use of these data it shall be taken into account that municipalities with Serb majority: Zvečan, Leposaviç, Zubin Potok and North part of Mitrovica didn't participate in Population Census conducted in April, 2011 (missing data) and therefore, if the data is compared with other sources there may be changes in the country level.

Results presented in this report provide an important source of information on the state of agriculture for the reference period (2010-2011).

In the questionnaire of 2011 Population Census the agricultural data has been collected from the questionnaire R2, where in total were 9 key questions and 36 sub question. Questions in the questionnaire were as follows:

Explanations in the manual have been provided as follows:

QUESTIONS ON AGRICULTURE

Information on owned land or utilized land by the household will be enumerated by utilization of the land during the year before the census and no matter where the land is located in Kosovo - whether it is within the territory of municipality where the household lives, or in the territory of any other municipality in Kosovo.

Do not forget that: 1 hectare = 10,000 sqm; 1 hectare = 100 ares; 1 are = 100 sqm

If in the territory where the census takes place, have been used local measurements of the land area, then you must record the area in proper boxes, customized for measuring of land areas in "hectares" and "ares."

Question No. 6 (R2): Does your household have owned or utilized land in Kosovo?

This question refers to entire area of the land, whether it is owned or utilized by the household. There are only two pre coded answers: Yes or No. If the answer is "No", skip to question 11 promptly.

Do not forget: the land that should be recorded may not be in the same municipality where the household lives, it can also be in any other municipality.

Question No. 7 (R2): What is the total area of the land owned by the household?

This question refers only to the land owned by the household. For various parts of this question, you must provide responses expressed in "ha" and "ares", using the relevant boxes with two numbers.

You shall enter:

- (a) Total area of land owned by the household, in these boxes must be entered total area of land owned by the household no matter whether it is utilized by the household or it is given to others in tenure.

- (b) Of the land owned given to others in tenure (b1 + b2) in these boxes have to be recorded the area of land given to others in tenure (sum b1 + b2) of land owned by the household.

- o (b1) For money or in kind, owned land given to others in tenure for money or compensation with products (goods).

(b2) Given free of charge, area of land owned by the household, given in tenure without any compensation.

- (c) Area of land owned utilized by the household (a-b) in these boxes have to be entered the difference between the area of land owned and area of land given in tenure by the household, calculated by the formula: $c = (a-b)$.

Question 8 (R2): What is the total area of the land rented or taken in tenure from the others in Kosovo? This question refers only to the land rented or taken in tenure from the others. For each various parts of this answer, you have to record answers expressed in “ha” and “ares”, using the respective boxes with two numbers.

You shall enter:

- d) Total land rented or taken in tenure from the others (d1 + d2): in these boxes, have to be recorded the total of the land area rented or taken in tenure from the others, for money or in kind, or free of charge $d = (d1) + (d2)$:

(d1) for money or in kind, in the boxes have to be recorded the area of land rented for money, or other forms of compensation in kind (such as, for example, goods, products, counter value).

(d2) free of charge, in these boxes have to be entered the area of land rented or taken in tenure without any compensation (free of charge).

Question No. 9 (R2): What is total area of land utilized by the household (c + d) in the census day?

First you have to record total area of land (owned or utilized by the household), calculated from the answers provided in questions 7 and 8 (c + d), using the formula (c) + (d). Then you have to ask; from this total, what is the area of: arable land (annual crops), greenhouses, meadows (clover, mixed grass, lucern, etc.), orchards, vineyards and fallow (uncultivated land for more than two years), pastures, forests and others (house courtyard, small pond / lake, etc.). Responses have to be entered in respective boxes “ha” and “ares.”

You should not do your own assessment, but equalization has to be done by you. Enter only the information provided to you by reference person.

Question No. 10 (R2): What is the size of cultivated area in 2010 with following cereals?

For this question, you must provide information for areas harvested in 2010 (a year prior census) with wheat, corn, potatoes and peppers.

Again, you should not do your own assessment, but equalization has to be done by you. Enter only the information provided to you by reference person.

Question No. 11 (R2): Does your household own livestock /animals?

There are only two pre coded answers: “Yes” and “No”. If the answer is “No”, you have to continue with Question 13.

Question No. 12 (R2): How many livestock, poultry and beehives owns the household ?

You have to record the number of all categories from the Question 12, which are owned by the household. Read all categories to the household head and enter the answers provided in the appropriate box.

Question No. 13 (R2): Does your household own any agricultural machinery?

There are only two pre coded answers: "Yes" and "No". If the answer is "Yes", continue with the question 14. If the answer is "No", then here ends the household questionnaire (Form R2), and now you have to continue with individual questionnaire (Form R3) for each household member.

Question No. 14 (R2): Does your household own any of following agricultural machinery?

Read the question to the household responsible person (head of the household) and enter each answer in respective boxes.

With the completion of question 14, you have completed the Household Questionnaire. Now you can continue with Individual Questionnaire (Form R3).

International definition on an agricultural household R3).

Under International standards (definitions) an agricultural households is estimated to be the household that:

possesses or cultivates more than 10 acres of arable land or less than 10 acres but has at least:

- a cow and a calf or a cow and a heifer,
- a cow and two heads of adult sheep or goats
- five adult sheep or goats
- four adult sheep and pigs together
- three adult pigs
- fifty adult
- twenty beehives
- over 20m² of fish pond

Based on the fact, that in Population Census (2011) the data has been obtained based on the statements of the respondents, as well for those households that didn't met the above criteria for being an agricultural household, the data in this report may not correspond with other data such as: various registers, surveys and other sources.

This Census data provide data users with the information on arable land of the households, livestock and cultivation of agricultural crops in Kosovo and at municipal level.

Tab.1.2 Main agricultural data

Total number of household	297,090
Number of households that own land or have land taken in tenure	195,124
Area of owned land by the household (Ha)	Ha
Total area owned by the household	262,572.18
Of owned land given to others in tenure	6,417.50
Area of available land utilized by the household	256,154.68
Total area of land taken in tenure or for utilization by the others	15,437.41
For money or in kind	9,871.94
Free of charge utilization	5,565.47
Arable land (annual crops)	84,447.79
Greenhouses	3,489.35
Meadows (clover, mixed grass, lucerne, etc.)	60,501.28
Orchards	5,018.24
Vineyards	5,106.30
Fallow (uncultivated land for more than 2 years)	24,262.13
Pasture	14,960.50
Forests	52,784.20
Others (farmyards, fish ponds...)	21,022.30
Agricultural crops	Ha
Wheat	47,304.62
Maize	27,514.87
Potatos	3,150.98
Peppers	2,913.68
Livestock, poultry and beehives available to the households	Nr.
Total ivestock	214,736
Of them milking cows	116,830
Sheep	121,677
Goats	16,564
Pigs	13,556
Horses and donkeys	5,202
Beehives	48,432
Any agricultural machinery owned	Nr.
Single axle tractor	39,802
Two axles tractor	14,548
Harvester combines	964
Trucks (for agriculture)	2,550
