Series 2: Agriculture and Environment Statistics

Output Price Index and Prices in Agriculture 2005-2012 (2005=100)

Preface

Kosovo Agency of Statistics respectively Agriculture and Environment Statistics Department started to collect data on prices for agriculture products in November 2003. In the beginning, prices were collected for a limited number of items. At the moment prices for 64 different items concerning agricultural output are collected. The plan for the future is to both increase the number of products and also to complement it with an Input Price Index.

This is the twenty-four publication on Output Price Index and Average Absolute Prices for agriculture products produced by Kosovo Agency of Statistics (KAS). In this publication, Output Price Index and prices for some major agriculture products are presented.

KAS is grateful to the Swedish International Development Cooperation Agency (SIDA) for their support of build up the agro monetary statistics system. KAS also is grateful for their corporation of all co-workers at the regional offices, other respondents of data collection as: agriculture farms, industrial and trade enterprises etc.

Especially grateful to Swedish price statistics experts Mr. Tomas Eriksson, Mr. Jimmie Enhall and Statistics Sweden Long-term consultant Mrs. Milva Ekonomi and others who directly or indirectly assisted on finalisation of this publication.

Suggestions, proposals and remarks for this publication are welcome and can be sent to:
E- mail: agriculture@ks-gov.net

This publication was prepared by following personnel:

Bajrush Qevani – Director of department,
Haki Kurti – Chief of division,
Violeta Arifi – Gashi – Chief of section,
Kademsha Bajramaga – Statistical officer

February 2013

Chief Executive Officer, KAS
Isa Krasniqi

Output Price Index for agriculture products

The publication includes data from January 2005 to December 2012. This publication is based on collection of prices for domestic products in Kosovo. The price collection was carried out at markets, farms and other places where prices on agriculture products are available.

The products which make up the base for the Output Price Index are divided into two main groups: Crop- and Animal Output. Within Crop Output, prices are collected under the following groups; Cereals, Forage plants, Vegetables, Potatoes and Fruits. Within Animal Output, prices are collected for Animals and Animal Product. For Animals prices are collected for four categories; Cattle, Sheep, Pigs and Poultry. These prices are based on the live weight of the animals. Within animal products prices are collected for Milk, Eggs and Honey. All prices are calculated in Euro and the measurement unit is in kg, liter and piece.

Figure 1. Shows Annual Output Price Index from 2005-2012 for Total Output as well as for Crop- and Animal Output (2005 = 100).

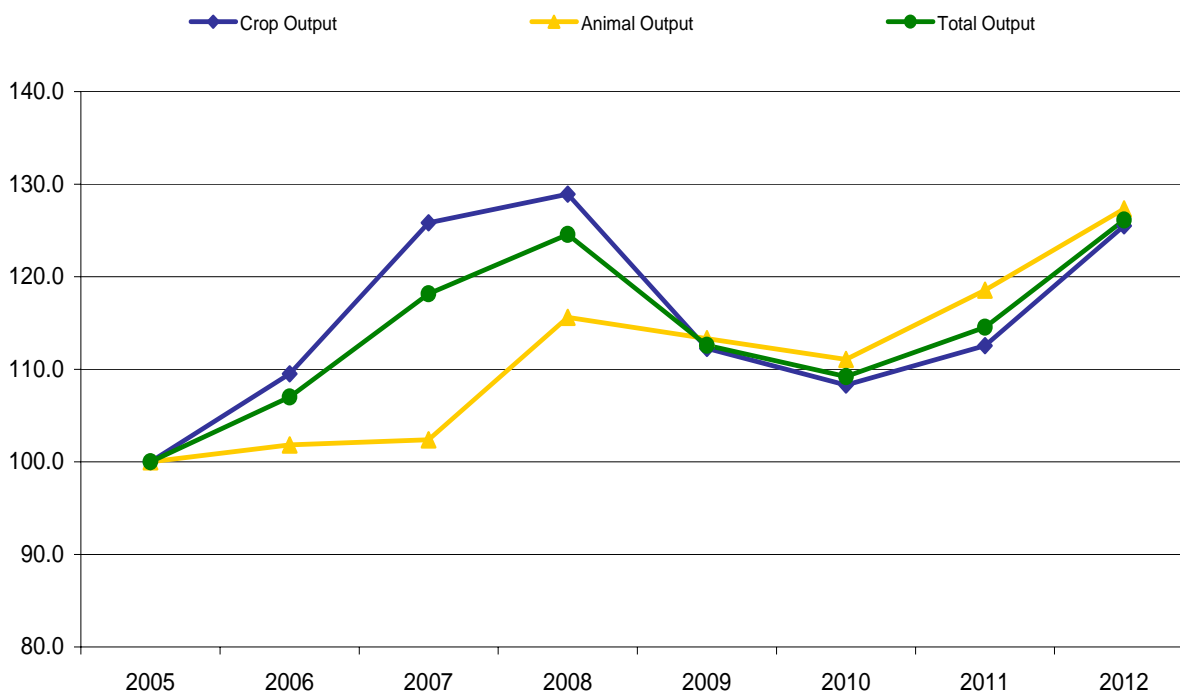

The annual index changes in 2012 compared with 2011 (change in %)

The annual index in 2012 has increased with 11.5 % for Animal Output compared to the same period 2011. The index for Crop Output has increased with 7.4 % between 2011 and 2012. Total Output Index has also increased during the period with 10.1 %.

The annual index changes in 2012 compared with 2005 (change in %)

The annual index in 2012 has increased with 25.5 % for Animal Output compared with 2005. The index for Crop Output has increased with 27.3 % between 2005 and 2012. Total Output Index has also increased with 26.1 % compared with 2005.

1.

- 1 Wheat – is domestic, 2 Barley , 3 Maize – Hybrid 448, 4 Rye, 5 Oats , 6 Hay produced in meadow, 7 Wheat straw (Stubble wheat), 8 Lucerne, 9 potatoes, 10 Cabbage (Hybrid 4 11 Onions- second quality, 12 Pepper- variety Sombork, 13 Spinach- variety Matador, 14 Beans- second quality, 15 Tomatoes- variety Arleta, 16 Cucumber- variety Cornishon, 17 Watermelon– is domestic product, 18 Leek, 19 Garlic, 20 Apple, 21 Pear ,22 Chestnuts, 23 Grape, 24 Walnuts, 25 Live weight per 1kg for bulls and heifers aged 18-22 months domestic pedigree, 26 Live weight per 1kg for pigs aged 10-12 months domestic pedigree, 27 Live weight per 1kg for sheep domestic pedigree (white, mug) aged older than 12 months, 28 Chicken (Village)– domestic (18 weeks old), 29 Chicken (farms)– domestic (18 weeks old) , 30 Milk –price for 1litre cow milk with 3.2% fat, 31 Honey domestic product, 32 Price for 30 pieces of eggs, first class of quality

Figure 2: Annual prices for wheat and maize 2005-2012, Euro /kg

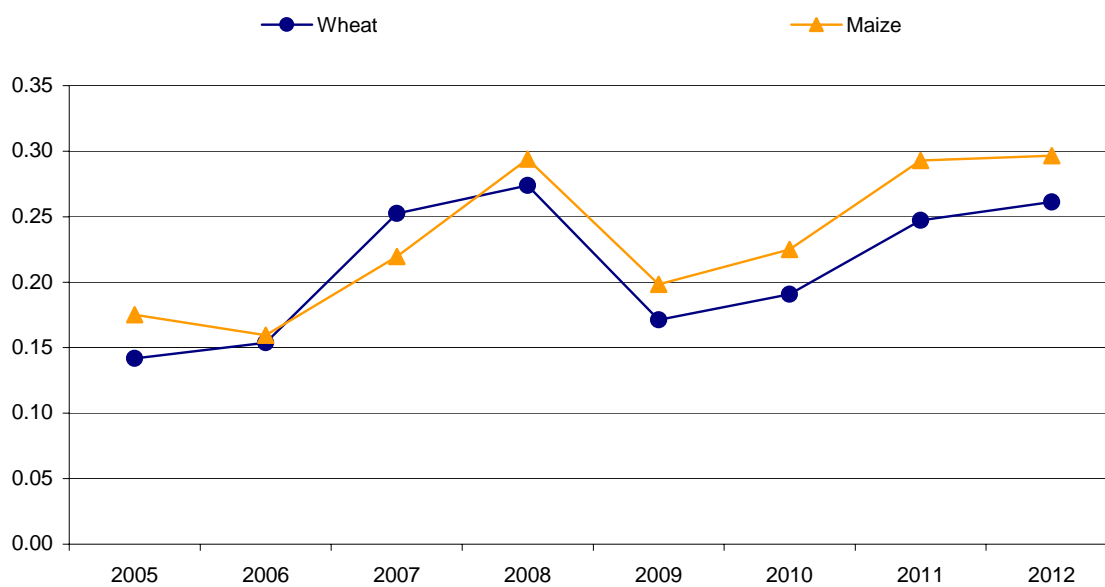

Figure 3: Annual prices for hay, straw and Lucerne 2005-2012, Euro /kg

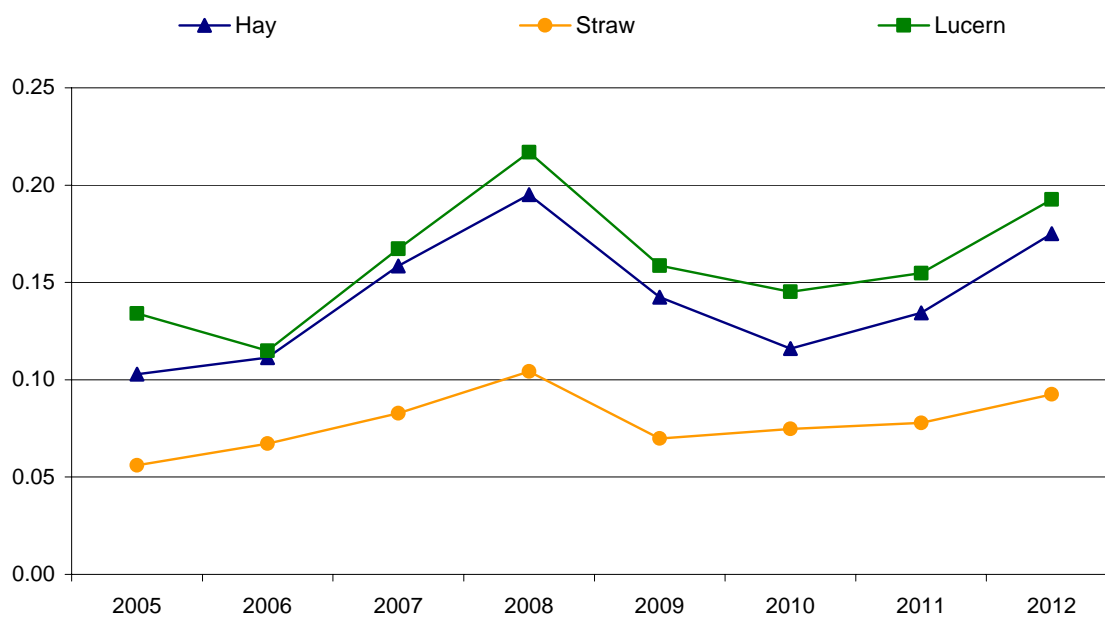

Figure 4: Annual prices for potatoes, tomatoes, pepper and cabbage 2005-2012, Euro /kg

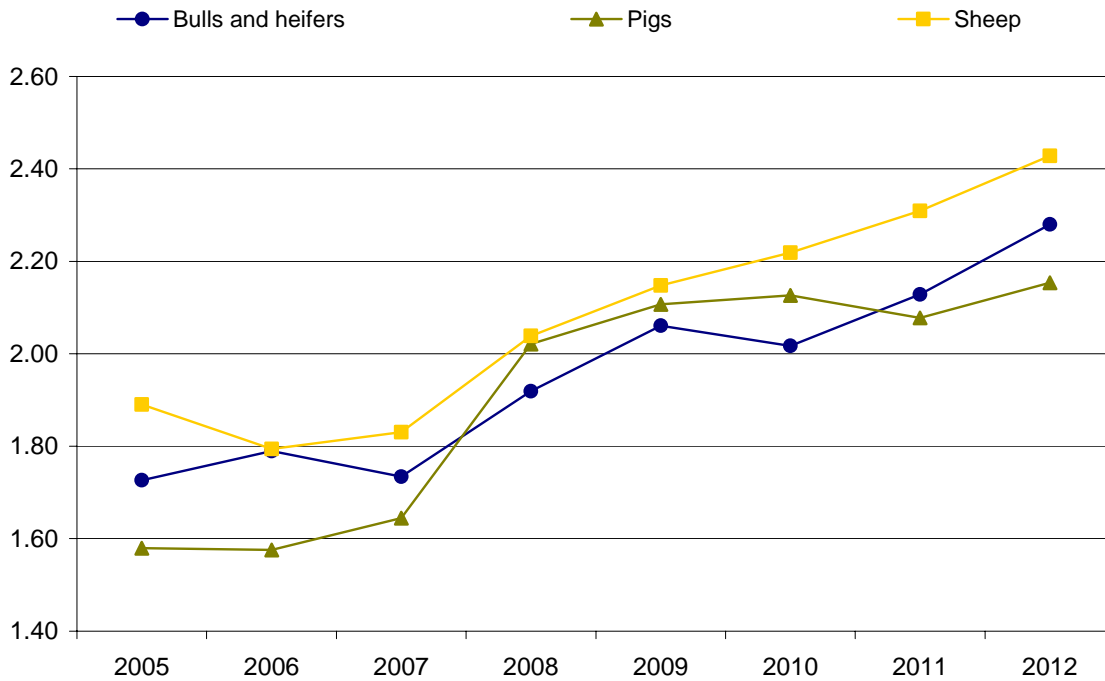

Figure 5: Annual prices for bulls and heifers, pigs and sheep (live weight price) 2005-2012, Euro /kg

Methodology

Prices and Price indices in this publication have been calculated according standards for price statistics in European Union. The project for calculating these Prices and Price Indices was conducted in the frame of the project of "Improving agro monetary statistics" in cooperation with Statistic Sweden and with financial support by Sida (Swedish International Development Cooperation Agency).

Prices have been collected since November 2003 and are collected in seven regions: Pristina, Mitrovica , Peja, Gjakova ,Prizren, Ferizaj and Gjilan,. Prices are collected around the 15th in every month. Since the start the number of different prices that are collected have increased step by step. Therefore some prices are not available for the whole period. Prices are now collected for 64 products and measures prices that farmers receive for the part of their production that are sold. Weights to calculate aggregated indices are mainly based on Agriculture Household Survey 2005, which is the base year in the indices (2005=100). It should be pointed out that the weights, in value or promille, only reflect the part of the agricultural production in Kosovo that are sold outside the agricultural household. For some products the value of the total production can be considerably higher than what is reflected in the weights.

According to EU standards, quarterly and annual indices are supposed to be calculated by each member state. The EU indices in this publication follow the methodology developed in EU. For national needs, also a monthly index is calculated. This index is calculated slightly different from the quarterly index. In short, the monthly index does not use monthly weights on aggregated level (when calculating code 10, 13 and 14). However for most crop groups (code 01, 03, 04 and 06) monthly weights are used within the group to calculate the group aggregates. On the other hand the quarterly index have variable quarterly weights everywhere. For this reason, the monthly and the quarterly indices might have slightly different developments if they are compared. However, the EU annual index and the Kosovo annual index are exactly the same. In both cases, the index is calculated as weighted annual index with monthly respectively quarterly weights.

The total weights, quarterly weights and monthly weights are fix during the base period. They all reflect the situation that was present in 2005. By having fix weights, the index is guaranteed only to measure price movements, which is the purpose of the index.

To compare the EU index presented in this publication with other countries, the Eurostat website is recommended (<http://epp.eurostat.ec.europa.eu/portal/page/portal/eurostat/home>).

Calculation of elementary Price Index

Calculations of elementary indices are in general done by using following formula, with un-weighted arithmetic mean price.

$$R_i^t = \frac{\frac{1}{n} \sum P_{ij}^t}{\frac{1}{n} \sum P_{ij}^o} \cdot 100$$

R_i^t – Elementary index for month t and product i

P – Collected price

i – Product i

j – Price j recorded for product (in general price for region 1,2,...,n)

t – Observed month

0 – Base month

Calculation of aggregated Price Index

Calculating aggregated index for total Output or subgroups of Output Index is done using following formula.

$$I^t = \sum \left(R_i^t \cdot \frac{w_i^0}{\sum w_i^0} \right)$$

I^t – Aggregated index for period t

w_i^0 – Weighting factor in base period for product i

i – Product i

t – Observed month

0 – Base month

Kosovo Agency of Statistics

short description

Kosovo Agency of Statistics is a professional institution which deals with collection, processing and publication of official statistical data. As such acts since 1948 and has passed through several historical stages, structured according to state regulation of those times.

On 2 August 1999, the Agency has resumed his professional work (after nine years of interruption of all statistical series detrimental to the interest of Kosovo), as an independent institution under the Ministry of Public Administration. Since 12.12.2011 the Agency operates in the frames of the Prime Minister's Office. Office is funded by the Kosovo Consolidated Budget, but also by donors for specific projects and for technical professional support.

Kosovo Agency of Statistics acts according to the Law No. 04/L-036 which entered into force on 12.12.2011. Strategic development plan 2009-2013 is the middle term implementation for the development of statistical system in correlation with the European Union statistics (EUROSTAT).

Kosovo Agency of Statistics has this organizational structure: production departments; (Department of Economic statistics and National Accounts, Department of Population statistics, Department of Agriculture and Environment statistics and Department of Social statistics. **Support Departments;** (Department of Methodology and Information Technology, Department of Administration. **Within the Agency we also established** Office of the Population Census, Huseholds and Dwellings. **Regional Offices;** Gjakove, Gjilan, Mitrovica, Peja, Prizren, Pristina and Ferizaj

Number of employees and budget are still limited. Employees are total of 134 workers, of them 96 (71.6%) at the headquarters of the Agency, while in the Regional Offices, 38 (28.4%), with qualifying structure, 65.4% with university education to 34.6% with secondary education.

We have professional and technical cooperation with all ministries of the Government of Kosovo, especially with the Ministry of Economy and Finance, Central Bank of Kosovo, with international institutions, EUROSTAT, International Monetary Fund, World Bank, Sweden's SIDA, DFID, UNFPA, UNDP, UNICEF, and with the statistical institutions of the countries in the region.

Kosovo Agency of Statistics almost completely covers the territory of Kosovo, based on the statistical structure of the enumeration areas as the basic unit and sole in the country from which it gets first hand information. All surveys conducted in the field use the extension of the samples in these enumeration areas but also a statistical methodology according to international recommendations. During the collection of statistical data and reports from reporting entities are involved professionals, technicians, administrators, servants of the country offices, field enumerators from regional offices, etc.

We have successfully implemented the project of Population Census, Households and Dwellings in 2011, Census that was not carried out since 1981. Results obtained from the Census will have an important role in compiling the development policies.

The mission of the Agency; to meet the needs of users with qualitative statistical data, objective, in time and space so that users have reliable base to conduct regular analysis in the interest of planning and project development at the municipal and country level. To support government institutions, scientific institutes, research academies, businesses in order to provide proper information for decision-makers and other users in Kosovo.
