## Series 3: Economic Statistics

# Energy Balance Q2 – 2017

AGJENCIA E STATISTIKAVE TË KOSOVËS  
AGENCIJA ZA STATISTIKE KOSOVA  
KOSOVO AGENCY OF STATISTICS

## Foreword

Kosovo Agency of Statistics (KAS) has prepared data on coal production and consumption, energy production and consumption, imports and exports of energy and import and export of other energy fuels. This statistical publication presents statistical data for second quarter of 2017.

Data sources used, include: Kosovo Energy Corporation (KEK), Kosovo Company for Distribution and Supply of Electricity KEDS and Kosovo International Trade Statistics.

Based on continued demand from various internal and external users and based on indicators of Eurostat which publishes the statistics of energy, we have presented data of interest.

The purpose of the publication is to be mindful of the tendency of development of this sector.

This publication will serve as a useful reference for all users of KAS statistical data and will serve as useful and relevant economic information for Kosovo.

In particular we thank the Kosovo Energy Corporation and the Kosovo Company for the Distribution and Supply of Electricity without whose cooperation this publication would not be possible.

Publication was prepared by:

Ilir T.Berisha - Director of the Department  
Ismail Sahiti – Head of the Division of Economic Statistics  
Hysni Elshani – Head of the Sector of Economic Statistics  
Bekim Bojku – Officer  
Sulltane Gashi – Officer  
Violeta Syla – Officer  
Ahmet Cakolli – Design Officer.

Proposals, suggestions and feedback can be sent in e-mail:  
([economic@rks-gov.net](mailto:economic@rks-gov.net))

August, 2017

Chief Executive Officer, KAS  
Mr. Isa Krasniqi

## Symbols and abbreviations

**Q 1** – First Quarter

**Q 2** – Second Quarter

**Q 3** – Third Quarter

**Q 4** – Fourth Quarter

**DIS** – Distribution

**GWh** – A unit for measuring power (Gigawatt hours of power).

**MWh** – A unit for measuring power (Megawatt hours of power). (1GWh=1000MWh).

## Key to symbols

- Not applicable

: No data.

**Note:** Position (Public lighting+Other<sup>1</sup>) is realized internal consumption for secondary needs to mining and quarrying.

## **C o n t e n t s**

	Page
Methodological explanations and definitions .....	5
1 Production and consumption of coal, electricity production in power plants and hydropower plants, import and export of electricity .....	7
2 Import and export of oil derivatives and coal .....	9
3 Final consumers (the last) .....	11

### **Production of coal in the second quarter of 2017**

In the second quarter of 2017, coal production was 1 952.4 thousand tons.

### **Gross electricity production in PP & HPP in the second quarter of 2017**

In the second quarter of 2017 the gross amount of electricity generated in power plants was 1 599.1 GWh, while in hydropower plants is 75.4 GWh.

### **Import and export of electricity in the second quarter of 2017**

In the second quarter of 2017, Kosovo has imported 78.5 GWh of electricity.

In this quarter (Q2 2017), Kosovo has exported 459.7 GWh of electricity.

### **Final customers in the second quarter of 2017**

In the second quarter of 2017, the amount of electricity available to consumers was 938.9 GWh of electricity. In relation to the same quarter last year (Q2 2016), the amount of electricity consumed raised to 13%.

(See Graph. 1 for the distribution of electricity by final consumers in percentage).

### **Import and export of energy fuels for the second quarter of 2017**

To view the performance of import and export of energy fuels in the second period of 2017 see Table 2a and 2b.

## Methodological explanations and definitions

**<sup>1</sup>Electricity** - means the form of energy which is transported through metal conductors.

**Energy** – means any form of manufactured or obtained energy (electricity, heating or natural gas) for supply or sale purpose.

**Energy fuel** - Fuels which release the energy during combustion are called energy fuels.

**Energy enterprise** - means electricity company which carries one or more of the following energy activities: production, transformation, transmission, distribution, supply, trading or disposal of electricity, heat or natural gas under a license issued by the Law on Energy Regulator or without a license if such license is not required.

**Production of coal** - Represents the amount of coal that is extracted from the mines.

**Production of electricity** - represents the amount of electricity produced in power plants and hydropower plants.

**Power generation** - implies the generation of electricity, heat or any other form of energy.

**Gross energy production** - represents all the amount of electricity production in power plants or hydropower plants.

**Net energy production** - represents the amount of electricity to the brink.

**Imports of electricity** - represents the amount of electricity purchased outside the state.

**Exports of electricity** - represents the amount of energy sold outside the state.

**Exchanges of electricity** - represent the amount of electricity exchanged or produced in the country and abroad.

**Losses of electricity** - represent the amount of electricity that is lost in transmission and distribution.

**Consumer** - means the consumer to purchase wholesale or the end (final) consumer of energy.

**Privileged consumers (220-110kV)** - means any natural or legal person who is free to buy electricity from the supplier to the choice of his/her.

**Distribution** - means that transport of electricity, heat or natural gas through high voltage lines, medium, or medium-pressure pipelines or low, in order of a delivery to customers, but not including supplies.

**<sup>2</sup>(2701) Coal-** briquette, egg-shaped and similar fuels produced from solid coal.

---

<sup>1</sup> Methodological explanations are taken from Energy Law No. 2004/8.

<sup>2</sup> Nomenclature of goods and customs fees.

(2702) **Lignite**- whether or not agglomerated, excluding jet.

(2703) **Peat**- (including its waste or litter), whether or not agglomerated.

(2704) **Coke** and semi-coke of coal. Lignite or of peat. Whether or not agglomerated; retort carbon:

(2705) **Coal gas**, water gas, producer gas, weak gas and similar gases (EXTL. petroleum gases and other gaseous hydrocarbons)

(2706) **Tar distilled from coal**, from lignite or from peat, and other mineral pitch, whether or not dehydrated or partially distilled including tar rebuilt.

(2707) **Oils and other products** of the distillation of high temperature coal tar, similar products in which the weight of the aromatic constituents exceeds those of non aromatic.

(2708) **Turpentine and turpentine coke**, obtained from coal tar or from other mineral tars.

(2709) **Petroleum oils** and oils obtained from bituminous minerals, crude.

(2710) **Petroleum oils** and oils obtained from bituminous minerals, other than crude; preparations unspecified and not elsewhere, containing by weight 70% or more of petroleum oils or oils obtained from bituminous minerals. These oils being the basic constituents of the preparations.

(2711) **Petroleum gases** and other hydrocarbon diesel.

(2712) **Gelatin oil**, paraffin wax, microcrystalline petroleum wax, liquid wax, ozokerite, lignite wax, peat wax, other mineral waxes, and similar products obtained by synthesis or by other processes, whether or not colored.

(2713) **Coconut oil**, bitumen and other residues of oils obtained from bituminous minerals.

(2714) **Natural bitumen and asphalt**, bituminous or oil-shale and tar sand, asphalt and asphaltic rocks

(2715) **Bituminous mastic** backed and other bituminous mixtures based on natural asphalt, bitumen supernatural, oil bitumen or mineral tar.

# 1 Production and consumption of coal, electricity production in power plants and hydropower plants, import and export of electricity

Tab 1. Production and consumption of coal, electricity production in power plants and hydropower plants, import and export of electricity from the year 2002- 2016

Period	Production of coal in thousand tons	Gross electricity production in PP in GWh	Electricity generation in hydro power plants GWh	Consumption GWh (including consumers 220-110 kv)	Imports of energy GWh	Exports of energy GWh
2002	5.527,9	3.151,7	..	1.950,4	816,1	648,2
2003	6.465,9	3.221,1	..	2.041,1	637,3	277,6

# Kosovo Agency of Statistics

## *short description*

**Kosovo Agency of Statistics** is a professional institution which deals with collection, processing and publication of official statistical data. As such acts since 1948 and has passed through several historical stages, structured according to state regulation of those times.

On 2 August 1999, the Agency has resumed his professional work (after nine years of interruption of all statistical series detrimental to the interest of Kosovo), as an independent institution under the Ministry of Public Administration. Since 12.12.2011 the Agency operates in the frames of the Prime Minister's Office. Office is funded by the Kosovo Consolidated Budget, but also by donors for specific projects and for technical professional support.

**Kosovo Agency of Statistics** acts according to the Law No. 04/L-036 which entered into force on 12.12.2011. Strategic development plan 2009-2013 is the middle term implementation for the development of statistical system in correlation with the European Union statistics (EUROSTAT).

**Kosovo Agency of Statistics** has this organizational structure: production departments; (Department of Economic statistics and National Accounts, Department of Agriculture and Environment statistics and Department of Social statistics. **Support Departments**; Department of Methodology and Information Technology, Department of Policy Planning, Coordination and Communication, Department of Census and survey and Department of Administration. **Within the Agency are also established Regional Offices**; Gjakove, Gjilan, Mitrovica, Peja, Prizren, Pristina and Ferizaj

Number of employees and budget are still limited. In KAS are employed in total 143 workers, of whom 98 (68,58 %) at the headquarters of the Agency, while in the Regional Offices, 45 (31,5%). Agency's educational qualifying structure is as follows: 61,7% with university education, 15,4% with non-tertiary education, and 17,5% with secondary education.

We have professional and technical cooperation with all Ministries of the Government of Kosovo, especially with the Ministry of Economy and Finance, Central Bank of Kosovo, with international institutions, EUROSTAT, International Monetary Fund, World Bank, Sweden's SIDA, DFID, UNFPA, UNDP, UNIVEF, and with the statistical institutions of the countries in the region.

**Kosovo Agency of Statistics** almost completely covers the territory of Kosovo, based on the statistical structure of the enumeration areas as the basic unit and sole in the country from which it gets first hand information. All surveys conducted in the field use the extension of the samples in these enumeration areas but also a statistical methodology according to international recommendations. During the collection of statistical data and reports from reporting entities are involved professionals, technicians, administrators, servants of the country offices, field enumerators from regional offices, etc.

In 2011, the project of Population Census , Households and Dwellings was successfully implemented, and in 2014 was successfully carried out the Agriculture Census. The result obtained from these censuses will have an important role in the development policies.

**The mission of the Agency**; to meet the needs of users with qualitative statistical data, objective, in time and space so that users have reliable base to conduct regular analysis in the interest of planning and project development at the municipal and country level. To support government institutions, scientific institutes, research academies, businesses in order to provide proper information for decision-makers and other users in Kosovo.
