QUARTERLY GROSS DOMESTIC PRODUCT – Q2 2018

Kosovo Agency of Statistics (KAS) publishes Quarterly Gross Domestic Product (GDP) for Q2 2018 by production and expenditure approach, at current and constant prices based on ESA 2010 methodology.

GDP in the Q2 of 2018 is increased with 4.7% compared with the corresponding quarter of the previous year.

The GVA by economic activities increased as follows:

Financial and insurance activities 33.1%, mining and quarrying 6.5%, wholesale and retail trade repair of motor vehicles and motorcycles 5.6%, construction 5.2%, transportation and storage 5.1%, public administration 5.0%, accommodation and food service activities 3.5%, real estate activities 2.0%, agriculture, forestry and fishing 0.9%, manufacturing 0.2%. Decreases were recorded in Electricity, gas, steam and air conditioning supply-water supply (4.2%);

The GDP by expenditure approach is increased due to the export of goods and services 12%, import of goods and services 11.7%, gross capital formation 12.2%, final consumption of Government 4.7%, household final consumption and NPISH 4.4%.

More information about Gross Domestic Product for Q2 2018, you will find in: <http://ask.rks-gov.net/>

Methodological explanations

1. Coverage

The calculations cover all activities, following the concepts of the European System of Accounts (ESA 2010).

2. Data sources used:

2.1 Statistical data sources

Short term indicators provided by KAS, on:

- Quarterly producer price index (PPI) for mining, manufacturing and electricity, gas and water supply;
- Harmonized Consumer Price Index (HCPI), estimated at 4 digits level of COICOP;
- Monthly agricultural input price index;
- Monthly agricultural output price index;
- Foreign trade statistics: import and export of goods;
- Hotel statistics (number of visitors and number of nights spent) ;
- Energy Statistics.
- Data from Labour Force Survey;

2.2 Administrative data sources

The monthly and quarterly administrative data sources used for the estimation of QGDP are:

- Monthly data of non-financial units, provided by Tax Authority (monthly information concerning the turnover, wages, contribution to the social security, number of employees, stocks, purchases, expenses);
- Monthly revenues and expenditures of government;
- Financial statements of Central Bank, other commercial banks and insurance companies;
- Monthly Balance of Payments, provided by Central Bank of Kosovo.

3. Estimation methods

The quarterly GDP estimation is based on the same principles, definitions, and structure of the annual data.

4. Data presentation

The main aggregates and categories are, as regards the concept and terminology, harmonized with ESA 2010. Data by activities are shown according to the Statistical Classification of Economic Activities in the European Community (NACE Rev 2).

Quarterly GDP data are presented in the following tables at current prices and as volume measures at prices of previous year.

5. Definitions and explanations

Gross domestic product by the production equals value added at basic prices by activities, increased by taxes on products, and reduced by subsidies on products. Gross domestic product thus equals the sum of value added at basic prices of all domestic (resident) production units and net taxes on products (taxes less subsidies on products).

Value added at basic prices equals output at basic prices, reduced by intermediate consumption at purchaser's price.

Kosovo Agency of Statistics

short description

Kosovo Agency of Statistics is a professional institution which deals with collection, processing and publication of official statistical data. As such acts since 1948 and has passed through several historical stages, structured according to state regulation of those times.

On 2 August 1999, the Agency has resumed his professional work (after nine years of interruption of all statistical series detrimental to the interest of Kosovo), as an independent institution under the Ministry of Public Administration. Since 12.12.2011 the Agency operates in the frames of the Prime Minister's Office. Office is funded by the Kosovo Consolidated Budget, but also by donors for specific projects and for technical professional support.

Kosovo Agency of Statistics acts according to the Law No. 04/L-036 which entered into force on 12.12.2011. Programme of Official Statistics 2013/2017 is in implementation for the development of statistical system in correlation with the European Union statistics (EUROSTAT).

Kosovo Agency of Statistics has this organizational structure: production departments; (Department of Economic statistics and National Accounts, Department of Agriculture and Environment statistics and Department of Social statistics. **Support Departments;** Department of Methodology and Information Technology, Department of Policy Planning, Coordination and Communication, Department of Census and survey and Department of Administration. **Within the Agency are also established Regional Offices;** Gjakove, Gjilan, Mitrovica, Peja, Prizren, Pristina and Ferizaj

In KAS are employed in total 147 workers, of whom 100 (68,0 %) at the headquarters of the Agency, while in the Regional Offices, 47 (32,0%). Agency's educational qualifying structure is as follows: 73,5% with university education, 13,6% with with non-tertiary education, and 12.9% with secondary education.

We have professional and technical cooperation with all Ministries of the Government of Kosovo, especially with the Ministry of Economy and Finance, Central Bank of Kosovo, with international institutions, EUROSTAT, International Monetary Fund, World Bank, Sweden's SIDA, DFID, UNFPA, UNDP, UNVEF, and with the statistical institutions of the countries in the region.

Kosovo Agency of Statistics almost completely covers the territory of Kosovo, based on the statistical structure of the enumeration areas as the basic unit and sole in the country from which it gets first hand information. All surveys conducted in the field use the extension of the samples in these enumeration areas but also a statistical methodology according to international recommendations. During the collection of statistical data and reports from reporting entities are involved professionals, technicians, administrators, servants of the country offices, field enumerators from regional offices, etc.

In 2011, the project of Population Census , Households and Dwellings was successfully implemented, and in 2014 was successfully carried out the Agriculture Census. The result obtained from these censuses will have an important role in the development policies.

The mission of the Agency; to meet the needs of users with qualitative statistical data, objective, in time and space so that users have reliable base to conduct regular analysis in the interest of planning and project development at the municipal and country level. To support government institutions, scientific institutes, research academies, businesses in order to provide proper information for decision-makers and other users in Kosovo.
