## Series 3: Economic Statistics

# Hotel Statistics Q2 2018

## Foreword

The Kosovo Agency of Statistics (KAS) has prepared the publication of the results of the Hotel Statistics in the period Q2 2018.

The survey on Hotel Statistics for the first time started in 2008, while the publication of these data started in 2009 on a regular quarterly basis in accordance with the Statistical Programme of KAS. The results of this research show the progress in the hotel activity in Kosovo.

Based on continued demand from various internal and external users of data and statistical information, as well as Eurostat recommendations and manuals on the indicators for hotel statistics, here we have introduced information of interest.

This publication will serve as a useful reference point for all users of KAS statistical data and as useful and relevant economic information for Kosovo.

Proposals, suggestions and feedback can be sent to email address:

## **1 Objective, coverage and definitions**

### **1.1. Objective**

The main objective of the research regarding the hotel statistics is to highlight the tendency of development of this economic activity in Kosovo. Statistical data of this publication present the trends in quarterly periods regarding this sector. These economic indicators enable the comparability of the data at the international level, taking into account the European standards for quarterly statistics.

### **1.2. Coverage**

The data used for this publication are obtained from surveys conducted in the framework of this research, and they are: hotel survey where data are collected from hotels and other accommodation units, tourism survey "Holidays and trips" where data are collected from households, and survey "Tourist turnover at the border crossings" where data are administrative and are obtained by Kosovo Police.

The data of the hotels used for publication (on a quarterly and annual basis) are from 2010 until Q2 2018, data from the Kosovo Police (on a monthly and annual basis) are from 2017 and the data on Tourism are from households and are from 2017 (in quarterly base).

### **1.3. Definitions**

#### **Hotel**

Hotel unit is an enterprise, which in business register is registered in hotel activity. Hotel units under the private businesses are included in this group. Depending on the services, these units are divided into hotels, motels, etc.

#### **Tourism**

Tourism comprises the activities of persons traveling to and staying in places different from their place of ordinary residence for a period not longer than one calendar year and the purpose of this trip is leisure, business or other.

#### **Visitor**

Visitor is a person who spends at least one night in a hotel in the place he/she visits. For the purposes of tourism statistics, the term "visitor" represents a "person" who travels to a country other than the country he/she resides, for a period less than 12 months. The person can be local or foreign.

Local visitor is a person with permanent residence in Kosovo, but that stays for at least one night in a different place within Kosovo.

Foreign visitor is considered a person with permanent residence outside Kosovo, but who stays temporarily in Kosovo for at least one night.

#### **Night of stay**

A visitor who spends a night in a hotel facility is known as night of stay in our research.

## **2 Hotel capacity**

### **2.1. Methodology and scope of the survey**

The hotel survey is conducted on a quarterly basis throughout the territory of Kosovo. Data are obtained from hotels and other accommodation units classified in hotel and tourism activity according to NACE Rev.2. The data are collected through the regional statistical offices (total of 7) through direct contact with reporting units and via email.

Based on the Statistical Programme of KAS, the following data are obtained: data on the number of hotels, number of employees, placement capacities (rooms, beds), the number of visitors and nights of stay by month as well as data for foreign visitors by country of origin.

### **2.2. Sampling frame and selection**

The Register of the Kosovo Hotel Capacity realized in 2016 is used as a sampling frame for the establishment of a hotel sampling (Table 1 and 2). This register contains 453 units which operate hotel activity in the territory of Kosovo, of which 44% are hotels and 40% are motels, while 16% comprise other types of accommodation units. The capacities of these total units at country level are 6,806 rooms and 10,710 beds.

The sampling for 2018 for the hotel survey contains 232 accommodation units divided by region. The largest number of accommodation units in the sampling has the Prishtina region with 74 units, then Peja with 54 units, Prizren 32, and so on (Table 3).

### **2.3. Response rate and survey data at the country level**

In the second quarter of 2018 (Q2 2018) the response rate in this survey was 80% (Table 3).

Starting from the publication Q1 2018, the hotel data will be published at the country level. In order to compare the data of 2018 with the two previous years 2017 and 2016 and in order to obtain results at country level, we have increased by weight the data for these two years (2017 and 2016).

### 3 Holidays and trips of the residents of the Republic of Kosovo

#### 3.1. Development and the scope of the survey

Within the research of Hotel and Tourism data, the KAS has also conducted a survey in the households. This survey started in 2017 and below we will present its first results. The survey is called "Holidays and Trips of the residents of the Republic of Kosovo" and its purpose is to measure participation of the residents of the Republic of Kosovo in tourism, how much do the residents of Kosovo travel inside and outside the country together with the purpose of the travel.

The survey has been conducted in the entire territory of Kosovo. For its realization, a sampling selection included 800 households. The Statistical Register of the Kosovo Population has been used as a sampling frame. Part of the survey were all members of the household over the age of 15.

**Table 1. Number of households in a sampling, sampling frame and response rate by regions in 2017**

## 4 Annex – Tourist turnover at the border crossings

### 4.1. Overall information

Part of the Hotel's publication are statistical data related to the number of foreign visitors registered at all border crossing points in the Republic of Kosovo. These data are administrative and the source of information is the Kosovo Police. KAS has started to collect these data from 2017 in order to create a basis for its regular collection and publication. The first data published are for the year of 2017 and, according to the Statistical Programme of KAS, their publication will be on an annual basis.

# Kosovo Agency of Statistics

## *short description*

**Kosovo Agency of Statistics** is a professional institution which deals with collection, processing and publication of official statistical data. As such acts since 1948 and has passed through several historical stages, structured according to state regulation of those times.

On 2 August 1999, the Agency has resumed his professional work (after nine years of interruption of all statistical series detrimental to the interest of Kosovo), as an independent institution under the Ministry of Public Administration. Since 12.12.2011 the Agency operates in the frames of the Prime Minister's Office. Office is funded by the Kosovo Consolidated Budget, but also by donors for specific projects and for technical professional support.

**Kosovo Agency of Statistics** acts according to the Law No. 04/L-036 which entered into force on 12.12.2011. Programme of Official Statistics 2018/2022 is in implementation for the development of statistical system in correlation with the European Union statistics (EUROSTAT).

**Kosovo Agency of Statistics** has this organizational structure: production departments; (Department of Economic statistics and National Accounts, Department of Agriculture and Environment statistics and Department of Social statistics. **Support Departments**; Department of Methodology and Information Technology, Department of Policy Planning, Coordination and Communication, Department of Census and survey and Department of Administration. **Within the Agency are also established Regional Offices**; Gjakove, Gjilan, Mitrovica, Peja, Prizren, Pristina and Ferizaj

In KAS are employed in total 155 workers, of whom 100 (68,0 %) at the headquarters of the Agency, while in the Regional Offices, 47 (32,0%). Agency's educational qualifying structure is as follows: 75,5% with university education, 12,3% with with non-tertiary education, and 12.3% with secondary education.

We have professional and technical cooperation with all Ministries of the Government of Kosovo, especially with the Ministry of Economy and Finance, Central Bank of Kosovo, with international institutions, EUROSTAT, International Monetary Fund, World Bank, Sweden's SIDA, DFID, UNFPA, UNDP, UNVEF, and with the statistical institutions of the countries in the region.

**Kosovo Agency of Statistics** almost completely covers the territory of Kosovo, based on the statistical structure of the enumeration areas as the basic unit and sole in the country from which it gets first hand information. All surveys conducted in the field use the extension of the samples in these enumeration areas but also a statistical methodology according to international recommendations. During the collection of statistical data and reports from reporting entities are involved professionals, technicians, administrators, servants of the country offices, field enumerators from regional offices, etc.

In 2011, the project of Population Census , Households and Dwellings was successfully implemented, and in 2014 was successfully carried out the Agriculture Census. The result obtained from these censuses will have an important role in the development policies.

**The mission of the Agency**; to meet the needs of users with qualitative statistical data, objective, in time and space so that users have reliable base to conduct regular analysis in the interest of planning and project development at the municipal and country level. To support government institutions, scientific institutes, research academies, businesses in order to provide proper information for decision-makers and other users in Kosovo.
