Series 3: Economic Statistics

Gross Domestic Product Q3 2019

QUARTERLY GROSS DOMESTIC PRODUCT – Q3 2019

Kosovo Agency of Statistics (KAS), respectively the Department of National Accounts has published the data for Gross Domestic Product for the third quarter of 2019 by production and expenditure approach at current and constant prices.

The main purpose of the publication is to provide a picture of current economic developments.

The methodology for estimating quarterly GDP is according to the concepts and definitions of the European System of Accounts (ESA 2010). The QGDP estimations are consistent with the annual national accounts.

The real GDP growth in the third quarter of 2019 was 4.38% compared to the corresponding quarter of the previous year.

The economic activities that contributed on the real growth are:

Financial and insurance activities 11.78%, Mining and quarrying; Manufacturing; Electricity; Water supply 7.90%, Wholesale; Professional and Administrative activities 7.03%, Transportation; Accommodation and food service 5.13%, Construction 3.46%, Public administration; Education; Health 1.02%.

Whereas the economic activities which decreased on this quarter are: Arts, entertainment and recreation; other service activities -18.75%, Agriculture, forestry and fishing -2.87%.

GDP components by expenditure approach which had an increase in this quarter are:

Final consumption of government 10.54%, Exports of goods and services 9.33%, Imports of goods and services 6.67%, Gross capital formation 3.52%, Final consumption of households and NPISH 2.40%.

*Note: QGDP by production approach is aggregated and presented in A*10 level of NACE Rev.2 activity classification.*

Detailed information can be found on KAS website: <http://askdata.rks-gov.net/>

Methodological explanations

1. Coverage

The calculations cover all activities, following the concepts of the European System of Accounts (ESA 2010).

2. Data sources

Statistical data sources

Short term indicators provided by KAS, on:

- Quarterly producer price index (PPI) for mining, manufacturing and electricity, gas and water supply;
- Harmonized Consumer Price Index (HCPI), estimated at 4 digits level of COICOP;
- Monthly agricultural input price index;
- Monthly agricultural output price index;
- Foreign trade statistics: import and export of goods;
- Hotel statistics (number of visitors and number of nights spent);
- Energy Statistics.
- Data from Labour Force Survey;

Administrative data sources

- The monthly and quarterly administrative data sources used for the estimation of QGDP are:
- Monthly data of non-financial units, provided by Tax Authority (monthly information concerning the turnover, wages, contribution to the social security, number of employees, stocks, purchases, expenses;
- Monthly revenues and expenditures of government;
- Financial statements of Central Bank, other commercial banks and insurance companies; - Monthly Balance of Payments, provided by Central Bank of Kosovo.

3. Estimation methods

The quarterly GDP estimation is based on the same principles, definitions, and structure of the annual data.

4. Data presentation

The main aggregates and categories are, as regards the concept and terminology, harmonized with ESA 2010. Data by activities are shown according to the Statistical Classification of Economic Activities in the European Community (NACE Rev 2). Quarterly GDP data are presented in the following tables at current prices and as volume measures at prices of previous year.

5. Definitions and explanations

Gross domestic product by the production equals value added at basic prices by activities, increased by taxes on products, and reduced by subsidies on products. Gross domestic product thus equals the sum of value added at basic prices of all domestic (resident) production units and net taxes on products (taxes less subsidies on products).

Intermediate consumption consists of goods and services consumed as inputs by a process of production, excluding fixed assets whose consumption is recorded as consumption of fixed capital. The goods and services are either transformed or used up by the production services.

Value added at basic prices equals output at basic prices, reduced by intermediate consumption at purchaser's price.

Kosovo Agency of Statistics

short description

Kosovo Agency of Statistics is a professional institution which deals with collection, processing and publication of official statistical data. As such acts since 1948 and has passed through several historical stages, structured according to state regulation of those times.

On 2 August 1999, the Agency has resumed his professional work (after nine years of interruption of all statistical series detrimental to the interest of Kosovo), as an independent institution under the Ministry of Public Administration. Since 12.12.2011 the Agency operates in the frames of the Prime Minister's Office. Office is funded by the Kosovo Consolidated Budget, but also by donors for specific projects and for technical professional support.

Kosovo Agency of Statistics acts according to the Law No. 04/L-036 which entered into force on 12.12.2011. Programme of Official Statistics 2013/2017 is in implementation for the development of statistical system in correlation with the European Union statistics (EUROSTAT).

Kosovo Agency of Statistics has this organizational structure: production departments; Department of Economic statistics, Department of National Accounts, Department of Agriculture and Environment statistics and Department of Social statistics. **Support Departments**; Department of Methodology and Information Technology, Department of Policy Planning, Coordination and Communication, Department of Census and survey and Department of Administration. **Within the Agency are also established Regional Offices**; Gjakove, Gjilan, Mitrovica, Peja, Prizren, Pristina and Ferizaj

In KAS are employed in total 159 workers, of whom 100 (68,0 %) at the headquarters of the Agency, while in the Regional Offices, 47 (32,0%). Agency's educational qualifying structure is as follows: 75,5% with university education, 12,3% with non-tertiary education, and 12,3% with secondary education.

We have professional and technical cooperation with all Ministries of the Government of Kosovo, especially with the Ministry of Economy and Finance, Central Bank of Kosovo, with international institutions, EUROSTAT, International Monetary Fund, World Bank, Sweden's SIDA, DFID, UNFPA, UNDP, UNVEF, and with the statistical institutions of the countries in the region.

Kosovo Agency of Statistics almost completely covers the territory of Kosovo, based on the statistical structure of the enumeration areas as the basic unit and sole in the country from which it gets first hand information. All surveys conducted in the field use the extension of the samples in these enumeration areas but also a statistical methodology according to international recommendations. During the collection of statistical data and reports from reporting entities are involved professionals, technicians, administrators, servants of the country offices, field enumerators from regional offices, etc.

In 2011, the project of Population Census , Households and Dwellings was successfully implemented, and in 2014 was successfully carried out the Agriculture Census. The result obtained from these censuses will have an important role in the development policies.

The mission of the Agency; to meet the needs of users with qualitative statistical data, objective, in time and space so that users have reliable base to conduct regular analysis in the interest of planning and project development at the municipal and country level. To support government institutions, scientific institutes, research academies, businesses in order to provide proper information for decision-makers and other users in Kosovo.
