## Series 3: Economic Statistics

### Producer Price Index Q2 2020

AGJENCIA E STATISTIKAVE TË KOSOVËS  
AGENCIJA ZA STATISTIKE KOSOVA  
KOSOVO AGENCY OF STATISTICS

## **F o r e w o r d**

Kosovo Agency of Statistics (KAS) has started to publish the Producer Price Index (PPI) in May 2009.

Prices and values of industrial products are collected from manufacturing enterprises with the most influence in Kosovo. Value of product and annual average price is referred to 2007, while since the first quarter of 2009 the index is monitored and calculated continuously in quarterly and annual periods.

PPI, or Producer Price Index is in accordance with the Standard Classification of Activities according to NACE rev.2, based on the "Regulation No.11/2013 Article 7, for the implementation of the Standard Classification of Activities. PPI is under construction and continuously seeks to include economic activities which currently are not active but gradually the product is expected from these activities.

Suggestions, comments, proposals and remarks related to this publication can be sent to: [economic@ks-gov.net](mailto:economic@ks-gov.net)

Publication was prepared by:

Ilir T.Berisha - Director of Economic Department

Ibish Asllani - Head of Division

Hamdi Jupolli - Head of Section

Hasan Berisha - Senior Officer

September, 2020

Chief Executive Officer, KAS

Isa Krasniqi

Definition and the purpose of PPI.....	8

## **Producer Price Index (PPI) for the second quarter of 2020**

The price index for total manufacturing in Kosovo decreased by -1.2% between Q2 2020 and Q1 2020. Compared with Q2 2019 production prices decreased by an average of -1.5%

### **Second quarter 2020 – First quarter 2020 -1.2%**

Producer prices in Kosovo decreased by an average of -1.2% between Q2 2020 and Q1 2020. Largest decreases by economic activity is noticed to: metal ore extraction (-28.5%), manufacture of metals (-2.6%), supply of electricity, gas, steam and air conditioning (-1.8%), manufacture of beverages (-1.3%), production of food products (-0.8%), manufacture of fabricated metal products, except machinery and equipment (-0.7%) and production of non-metallic mineral products (-0.2%).

The decrease was counteracted by increases in prices of: manufacture of motor vehicles (transport), trailers and semi-trailers (6.0%), manufacture of wood and of products of wood and cork, except furniture, manufacture of articles of straw and plaiting materials - plating (3.3%), manufacture of chemical products (1.1%), manufacture of leather and articles thereof (0.7%), other ores and quarries (0.5%), manufacture of rubber and plastic (0.2%) and manufacture of furniture (0.1%).

### **Second quarter 2020 – Second quarter 2019 -1.5%**

Producer prices in Kosovo decreased by an average of -1.5% between Q2 2020 and Q2 2019. The largest decreases by economic activities were: metal ore extraction (-39.1%), production of non-metallic mineral products (-6.0%), manufacture of machinery and equipment p.k.t. (-4.8%), manufacture of metals (-4.7%), manufacture of beverages (-3.3%), manufacture of furniture (-1.4%), manufacture of rubber and plastic (-1.1%), supply of electricity, gas, steam and air conditioning (-1.0%), production of food products (-0.8%) and manufacture of paper and articles of paper (-0.2%).

The decrease was counteracted by rising prices: manufacture of leather and articles thereof (7.7%), manufacture of motor vehicles (transport), trailers and semi-trailers (7.5%), manufacture of wood and of products of wood and cork, except furniture, manufacture of articles of straw and plaiting materials - plating (4.4%), manufacture of chemical products (3.7%), manufacture of fabricated metal products, except machinery and equipment (1.8%), manufacture of electrical equipment (1.0%) and other ores and quarries (0.9%).

## Definition and the purpose of PPI

Producer Price Index (PPI) is a relative indicator that measures the degree to which prices of goods (products) produced and services vary in a certain period of time. This index is the statistical key for decision making process on economic policy, business and monitoring the inflator and deflator parameters. As a statistical parameter, PPI has a special significance for the estimation (calculation) of the Gross Domestic Product by production approach.

## Methodology

Prices and value of industrial products are collected from the most representative manufacturing enterprises in Kosovo. Value of products and average price are for Q1 2007, while since Q1 2009 the collection is made in regular quarterly bases.

Due to comparability of data with Eurostat, with the decision of the Government of the Republic of Kosovo, the Kosovo Statistical Agency from 01.09.2014 has started using the new nomenclature of economic activities (NACE Rev. 2) based on the "Regulation No.11/2013 on the implementation of standards for the classification of activities" therefore the Producer Price Index has changed in accordance with this nomenclature.

At the same time the core index has changed moving from base year 2007=100 in base year **2010=100**. Sections 12,13,14,18, 21, 32 and 38 take part in the calculation of the Index, but because prices for these sections have started to be collected after 2010 and they lack base index 2010=100 of which later will create base index and will calculate the following indicators.

Since 2019, PPI is calculated for 26 Sections (economic activities), about 197 Manufacturing enterprise over 800 (concretely 807) items. As a project (GOPA - KAS) has started in 2007 in order to create the basis for establishing the PPI survey, while since the mid-2010 project is being supported by Swedish SIDA.

PPI from first quarter 2020 uses specific weights updated from the data of the Structural Business Survey (SBS), 2018.

For the calculation of PPI is used the Laspeyres formula.

Aggregation of PPI as a whole

$$PPI_0^q = 100 * \sum_{g=1}^h w_g * I_{0,g}^q$$

$PPI_0^q$  = Producer Price Index between quarter 0 and quarter q

$w_g$  = Weights per groups

$I_{0,g}^m$  = Rate of price for group g between quarter 0 and quarter q

$h$  = Number of economic activities according to NACE REV 2

## Calculating the PPI chain index

$$PPI_{2010}^{Y,q} = \frac{PPI_{2010}^{Y-1,4}}{100} * PPI_0^{Y,q}$$

$PPI_{2010}^{Y,q}$  = Chain index of PPI between 2010 and quarter q in the current year

$PPI_{2010}^{Y-1,4}$  = Chain index of PPI between 2010 and quarter 4 of the previous year

$PPI_0^{Y,q}$  = Producer price index between quarter 0 and quarter q in the current year

## Calculation of changes

Changes between quarter q and quarter q-1 is calculated as follows:

$$\left[ \left( \frac{PPI_0^{Y,q}}{PPI_0^{Y,q-1}} \right) - 1 \right] * 100 = \text{Percentage of quarterly change}$$

$PPI_0^{Y,q}$  = PPI for the current quarter q

$PPI_0^{Y,q-1}$  = PPI for the previous quarter q-1

## Annual changes are calculated:

$$\left[ \left( \frac{PPI_{2010}^{Y,q}}{PPI_{2010}^{Y-1,q}} \right) - 1 \right] * 100 = \text{Percentage of annual change}$$

$PPI_{2010}^{Y,q}$  = Producer price index for current quarter q

$PPI_{2010}^{Y-1,q}$  = Producer price index for previous year and quarter q

# Kosovo Agency of Statistics

## *short description*

**Kosovo Agency of Statistics** is a professional institution which deals with collection, processing and publication of official statistical data. As such acts since 1948 and has passed through several historical stages, structured according to state regulation of those times.

On 2 August 1999, the Agency has resumed his professional work (after nine years of interruption of all statistical series detrimental to the interest of Kosovo), as an independent institution under the Ministry of Public Administration. Since 12.12.2011 the Agency operates in the frames of the Prime Minister's Office. Office is funded by the Kosovo Consolidated Budget, but also by donors for specific projects and for technical professional support.

**Kosovo Agency of Statistics** acts according to the Law No. 04/L-036 which entered into force on 12.12.2011 and Amendment of Law No. 06/L-058 which entered into force on 17.01.2019 . Programme of Official Statistics 2018/2022 is in implementation for the development of statistical system in correlation with the European Union statistics (EUROSTAT).

**Kosovo Agency of Statistics** has this organizational structure: production departments; Department of Economic statistics, Department of National Accounts, Department of Agriculture and Environment statistics and Department of Social statistics. **Support Departments**; Department of Methodology and Information Technology, Department of Policy Planning, Coordination and Communication, Department of Census and survey and Department of Administration. **Within the Agency are also established Regional Offices**; Gjakove, Gjilan, Mitrovica, Peja, Prizren, Pristina and Ferizaj

In KAS are employed in total 156 workers, of whom 115 at the headquarters of the Agency, while in the Regional Offices, 41. Agency's educational qualifying structure is as follows: 123 with university education, 15 with with non-tertiary education, and 18 with secondary education.

We have professional and technical cooperation with all Ministries of the Government of Kosovo, especially with the Ministry of Economy and Finance, Central Bank of Kosovo, with international institutions, EUROSTAT, International Monetary Fund, World Bank, Sweden's SIDA, DFID, UNFPA, UNDP, UNVEF, and with the statistical institutions of the countries in the region.

**Kosovo Agency of Statistics** almost completely covers the territory of Kosovo, based on the statistical structure of the enumeration areas as the basic unit and sole in the country from which it gets first hand information. All surveys conducted in the field use the extension of the samples in these enumeration areas but also a statistical methodology according to international recommendations. During the collection of statistical data and reports from reporting entities are involved professionals, technicians, administrators, servants of the country offices, field enumerators from regional offices, etc.

In 2011, the project of Population Census , Households and Dwellings was successfully implemented, and in 2014 was successfully carried out the Agriculture Census. The result obtained from these censuses will have an important role in the development policies.

**The mission of the Agency**; to meet the needs of users with qualitative statistical data, objective, in time and space so that users have reliable base to conduct regular analysis in the interest of planning and project development at the municipal and country level. To support government institutions, scientific institutes, research academies, businesses in order to provide proper information for decision-makers and other users in Kosovo.
