## Series 3: Economic Statistics

# Energy Balance Q3 2021

AGJENCIA E STATISTIKAVE TË KOSOVËS  
AGENCIJA ZA STATISTIKE KOSOVA  
KOSOVO AGENCY OF STATISTICS

## FOREWORD

Kosovo Agency of Statistics (KAS) has compiled data on production and consumption of coal, production and consumption of energy, import and export of energy and import and export of other energy fuels. This statistical publication presents statistical data for the third quarter of 2021.

The source of data is the Kosovo Energy Corporation (KEK), Kosovo Company for Distribution and Supply of Electricity (KEDS), and Kosovo International Trade Statistics.

Based on continued demand from various internal and external users and based on indicators of Eurostat which publishes the statistics of energy, here are presented data of interest.

The purpose of the publication is to be mindful on the tendency of development of this sector.

This publication will serve as a useful reference base for all users of KAS statistical data and will serve as useful and relevant economic information for Kosovo.

In particular, we thank the Kosovo Energy Corporation and the Kosovo Company for the Distribution and Supply of Electricity without whose cooperation this publication would not be possible.

Publication was prepared by:

Ismail Sahiti	– Acting Director of Department
Hysni Elshani	– Acting Head of the Division of Economic Statistics
Bekim Bojku	– Officer
Qendresa Shala-Sopaj	– Officer
Dafina Kumnova	– Officer
Vivianit Fejza	– Officer
Ahmet Cakolli	– Design Officer.

Proposals, suggestions and feedback can be sent to:  
([economic@rks-gov.net](mailto:economic@rks-gov.net))

November, 2021

Acting Chief Executive Officer, KAS  
Mr. Ilir T. Berisha

## List of Symbols and Abbreviations

**Q 1** – First Quarter

**Q 2** – Second Quarter

**Q 3** – Third Quarter

**Q 4** – Fourth Quarter

**DIS** – Distribution

**GWh** – A unit for measuring power (Gigawatt hours of power).

**MWh** – A unit for measuring power (Megawatt hours of power) (1GWh=1000MWh).

### Key to symbols

## List of Contents

	Page
Production of coal in the third quarter of 2021 .....	5
Gross electricity production in PP & HPP in the third quarter of 2021 .....	5
Import and export of electricity in the third quarter of 2021 .....	5
Final consumers in the third quarter of 2021 .....	5
Import and export of fuels in the third quarter of 2021 .....	5
Methodological explanations and definitions .....	6
1 Production and consumption of coal, electricity production in power plants and hydropower plants, import and export of electricity .....	8
2 Import and export of oil derivatives and coal .....	10
3 Final consumers (the last) .....	13

### **Production of coal in the third quarter of 2021**

In the third quarter of 2021, production of coal is 1 883.7 thousand tons.

### **Gross electricity production in PP & HPP in the third quarter of 2021**

In the third quarter of 2021, the gross amount of electricity produced in power plants is 1 358.2 GWh, while in hydro power plants it is about 41.1 GWh.

### **Import and export of electricity in the third quarter of 2021**

In the third quarter of 2021, Kosovo imported 919.9 GWh of electricity.

In this quarter (Q3 2021), Kosovo exported 841.7 GWh of electricity.

### **Final consumers in the third quarter of 2021**

In the third quarter of 2021, the amount of electricity consumed was 1,125.9 GWh of electricity. In relation to the same quarter last year (Q3 2020), the amount of electricity consumed increased by 23.11 %.

(To see the distribution of electricity by final consumers in percentage, see Graph 1).

### **Import and export of fuels in the third quarter of 2021**

To see the performance of import and export of fuels in the third period of 2021, see Table 2a and 2b.

## **Methodological explanations and definitions**

**<sup>1</sup>Electricity** - means the form of energy which is transported through metal conductors.

**Energy** – means any form of manufactured or obtained energy (electricity, heating or natural gas) for supply or sale purpose.

**Energy fuel** - fuels which release the energy during combustion are called energy fuels.

**Energy enterprise** - means electricity company which carries one or more of the following energy activities: production, transformation, transmission, distribution, supply, trading or disposal of electricity, heat or natural gas under a license issued by the Law on Energy Regulator or without a license if such license is not required.

**Production of coal** - represents the amount of coal that is extracted from the mines.

**Production of electricity** - represents the amount of electricity produced in power plants and hydropower plants.

**Power generation** - implies the generation of electricity, heat or any other form of energy.

**Gross energy production** - represents all the amount of electricity production in power plants or hydropower plants.

**Net energy production** - represents the amount of electricity to the brink.

**Imports of electricity** - represents the amount of electricity purchased outside the state.

**Exports of electricity** - represents the amount of energy sold outside the state.

**Exchanges of electricity** - represent the amount of electricity exchanged or produced in the country and abroad.

**Losses of electricity** - represent the amount of electricity that is lost in transmission and distribution.

**Consumer** - means the consumer to purchase wholesale or the end (final) consumer of energy.

**Privileged consumers (220-110kV)** - means any natural or legal person who is free to buy electricity from the supplier to the choice of his/her.

**Distribution** - means that transport of electricity, heat or natural gas through high voltage lines, medium, or medium-pressure pipelines or low, in order of a delivery to customers, but not including supplies.

**Coal** – briquette, egg-shaped and similar fuels produced from solid coal.

**Lignite**- whether or not agglomerated, excluding jet.

**Peat**- (including its waste or litter), whether or not agglomerated.

---

<sup>1</sup> Methodological explanations are taken from Energy Law No. 2004/8.

**Coke** and semi coke of coal, Lignite or of peat. Whether or not agglomerated; retort carbon:

**Coal gas**, water gas, producer gas, weak gas and similar gases (EXTL. petroleum gases and other gaseous hydrocarbons)

**Tar distilled from coal**, from lignite or from peat, and other mineral pitch, whether or not dehydrated or partially distilled including tar rebuilt.

**Oils and other products** of the distillation of high temperature coal tar, similar products in which the weight of the aromatic constituents exceeds those of non aromatic.

**Turpentine and turpentine coke**, obtained from coal tar or from other mineral tars.

**Petroleum oils** and oils obtained from bituminous minerals, crude.

**Petroleum oils** and oils obtained from bituminous minerals, other than crude; preparations unspecified and not elsewhere, containing by weight 70% or more of petroleum oils or oils obtained from bituminous minerals. These oils being the basic constituents of the preparations.

**Petroleum gases** and other hydrocarbon diesel.

**Gelatin oil**, paraffin wax, microcrystalline petroleum wax, liquid wax, ozokerite, lignite wax, peat wax, other mineral waxes, and similar products obtained by synthesis or by other processes, whether or not colored.

**Coconut oil**, bitumen and other residues of oils obtained from bituminous minerals.

**Natural bitumen and asphalt**, bituminous or oil-shale and tar sand, asphalt and asphaltic rocks

**Bituminous mastic** backed and other bituminous mixtures based on natural asphalt, bitumen supernatural, oil bitumen or mineral tar.

# 1 Production and consumption of coal, electricity production in power plants and hydropower plants, import and export of electricity

Tab 1. Production and consumption of coal, electricity production in power plants and hydropower plants, import and export of electricity from the year 2002 - 2020

Period	Coal production in thousand tons	Gross electricity production in TC in GWh	Electricity generation in hydropower plants GWh	Consumption GWh (including consumers 220 - 110kV)	Import of energy GWh	Export of energy GWh
2002	5 527,9	3 151,7	:	1 950,4	816,1	648,2
2003	6 465,9	3 221,1	:	2 041,1	637,3	277,6
2004	5 658,3	3 481,1	:	2 139,3	650,7	194,7

# Kosovo Agency of Statistics

## *short description*

**Kosovo Agency of Statistics** is a professional institution which deals with collection, processing and publication of official statistical data. As such acts since 1948 and has passed through several historical stages, structured according to state regulation of those times.

On 2 August 1999, the Agency has resumed his professional work (after nine years of interruption of all statistical series detrimental to the interest of Kosovo), as an independent institution under the Ministry of Public Administration. Since 12.12.2011 the Agency operates in the frames of the Prime Minister's Office. Office is funded by the Kosovo Consolidated Budget, but also by donors for specific projects and for technical professional support.

**Kosovo Agency of Statistics** acts according to the Law No. 04/L-036 which entered into force on 12.12.2011 and Amendment of Law No. 06/L-058 which entered into force on 17.01.2019 . Programme of Official Statistics 2018/2022 is in implementation for the development of statistical system in correlation with the European Union statistics (EUROSTAT).

**Kosovo Agency of Statistics** has this organizational structure: production departments; Department of Economic statistics, Department of National Accounts, Department of Agriculture and Environment statistics and Department of Social statistics. **Support Departments**; Department of Methodology and Information Technology, Department of Policy Planning, Coordination and Communication, Department of Census and survey and Department of Administration. **Within the Agency are also established Regional Offices**; Gjakove, Gjilan, Mitrovica, Peja, Prizren, Pristina and Ferizaj

In KAS are employed in total 156 workers, of whom 115 at the headquarters of the Agency, while in the Regional Offices, 41. Agency's educational qualifying structure is as follows: 123 with university education, 15 with non-tertiary education, and 18 with secondary education.

We have professional and technical cooperation with all Ministries of the Government of Kosovo, especially with the Ministry of Economy and Finance, Central Bank of Kosovo, with international institutions, EUROSTAT, International Monetary Fund, World Bank, Sweden's SIDA, DFID, UNFPA, UNDP, UNVEF, and with the statistical institutions of the countries in the region.

**Kosovo Agency of Statistics** almost completely covers the territory of Kosovo, based on the statistical structure of the enumeration areas as the basic unit and sole in the country from which it gets first hand information. All surveys conducted in the field use the extension of the samples in these enumeration areas but also a statistical methodology according to international recommendations. During the collection of statistical data and reports from reporting entities are involved professionals, technicians, administrators, servants of the country offices, field enumerators from regional offices, etc.

In 2011, the project of Population Census , Households and Dwellings was successfully implemented, and in 2014 was successfully carried out the Agriculture Census. The result obtained from these censuses will have an important role in the development policies.

**The mission of the Agency**; to meet the needs of users with qualitative statistical data, objective, in time and space so that users have reliable base to conduct regular analysis in the interest of planning and project development at the municipal and country level. To support government institutions, scientific institutes, research academies, businesses in order to provide proper information for decision-makers and other users in Kosovo.
