Short-term Industry Statistics

January 2022

Prishtina, 08 Prill: The Kosovo Agency of Statistics (KAS) has compiled the publication of the results of the Short-Term Industry Statistics by presenting the *industrial volume index* in the period – January 2022 (2020 = 100).

From April and onwards this research is an integral part of the KAS Statistical Programme which is based on the statements of the enterprises. Through the data that provides, this survey aims to present the performance in the industry in quarterly periods (*B – Mining and Quarrying, C – Manufacturing, D - Electricity, gas, steam and air conditioning supply, and E - Water supply, waste management and treatment activities*) and to understand the cycle of the development in the industry.

At the same time, the results of this research are used for the needs of national accounts and are an important source in the compilation of Gross Domestic Product by production approach on a quarterly basis.
