Retail Trade Statistics

February 2022

Pristina, 11.05.2022: The Kosovo Agency of Statistics (KAS) has compiled the results of Short-term Retail Trade Statistics by presenting the turnover index for the month of February 2022 (2020=100).

These statistics are an integral part of the KAS Statistical Programme and are based on the statements of enterprises.

Starting in the month of January, this will be a regular release on a monthly basis. The results of this research present the performance in retail trade in monthly periods.

The results of this research are also used for the purposes of compiling the national accounts and are an important source in compiling the Gross Domestic Product by production and expenditure approach on a quarterly basis.

This publication will be subject to revision.
