Energy Statistics, April 2022

June, 2022

Prishtina, 22.06.2022: Kosovo Agency of Statistics (KAS) has prepared the publication of Energy Statistics in April 2022

Kosovo Agency of Statistics (KAS) has compiled on a monthly basis a publication with data on production and consumption on coal, production and consumption of energy, import and export of energy and import and export of other energy fuels. This statistical publication presents statistical data for the month of April 2022.

The source of data are: Kosovo Energy Corporation (KEK), Kosovo Company for Distribution and Supply of Electricity KESCO, KOSTT and Kosovo International Trade Statistics within KAS.

Based on continued demand from various internal and external users and based on indicators of Eurostat which publishes the statistics of energy on a monthly basis, here are presented data of interest.

The purpose of the publication is to be mindful of the tendency of development of this sector.

The publication will serve as a useful reference base for all users of KAS statistical data and will serve as useful and relevant economic information for Kosovo.

In particular, we thank the Kosovo Energy Corporation and the Kosovar Company for Distribution and Supply of Electricity and KOST without whose cooperation this publication would not have been possible.

As the data are preliminary, the monthly publications will be revised when data on energy are released annually.

Proposals, suggestions and feedback can be sent to: infoask@rks-gov.net

Publication was prepared by:

Ismajl Sahiti – Acting Director of Department
Hysni Elshani – Acting Head of the Division of Economic Statistics
Bekim Bojku – Officer for Economic Statistics

1. Energy available in April 2022

In the month of April 2022, the gross generation of electricity from power plants was 563.94 GWh. The gross electricity generation from hydropower plants was 13.13 GWh." And the gross generation of electricity from wind and solar power was 34.58 GWh.

During the month of April 2022 the gross available electricity was 572.05 GWh while the electricity consumption was 459.68 GWh or by -9.48 lower than the same month of the previous year. The share of alternative electricity within the total consumption was 11.46%

Meanwhile, the import of electricity in April 2022 was 206.1 GWh while the export of electricity in the same period was 245.7 GWh.

Coal production was 6.49 thousand tons, or about 11.39% lower than in the same month of the previous year.

The tables and graphs below indicate detailed situation on energy consumption and other energy fuels or resources.
