Energy Statistics

September 2022

Prishtina, 22.11.2022: The Kosovo Agency of Statistics (KAS) has prepared the publication of Energy Statistics for the month of September 2022

Kosovo Agency of Statistics (KAS) has compiled on a monthly basis a publication with data on production and consumption on coal, production and consumption of energy, import and export of energy and import and export of other energy fuels. This statistical publication presents statistical data for the month of September 2022.

The source of data are: Kosovo Energy Corporation (KEK), Kosovo Company for Distribution and Supply of Electricity KESCO, KOSTT and Kosovo International Trade Statistics within KAS.

Based on continued demand from various internal and external users and based on indicators of Eurostat which publishes the statistics of energy on a monthly basis, here are presented data of interest.

The purpose of the publication is to be mindful of the tendency of development of this sector.

The publication will serve as a useful reference base for all users of KAS statistical data and will serve as useful and relevant economic information for Kosovo.

In particular, we thank the Kosovo Energy Corporation and the Kosovar Company for Distribution and Supply of Electricity and KOST without whose cooperation this publication would not have been possible.

As the data are preliminary, the monthly publications will be revised when data on energy are released annually.

Proposals, suggestions and feedback can be sent to: infoask@rks-gov.net

Publication was prepared by:

Ismajl Sahiti - Acting Director of Department
Mensure Çerkezi - Acting Head of the Division of Economic Statistics
Hysni Elshani - Head of the Economic Statistics Sector
Bekim Bojku - Officer for Economic Statistics

November, 2022

Acting Chief Executive Officer, KAS
Mr. Ilir T. Berisha

1. Energy available in August 2022

In the month of September 2022, the gross generation of electricity from thermal power plants was 460.04 GWh, the gross generation from hydropower plants was 9.03 GWh, and the gross generation of electricity from wind and solar power was 35.75 GWh.

During the month of September of 2022, the gross electricity available was 454.52 GWh, while the consumption of electricity was 314.96 GWh or 6.1% less than the same month of the previous year. The share of alternative electricity within the total consumption was 14.22%.

Meanwhile, the import of electricity in September of 2022 was 273.26 GWh, while the export of electricity in the same period was 325.55 GWh (this includes the transmission).

Coal production was about 8.44 thousand tons, or 57.22% more than in the same month of the previous year.

The tables and graphs below indicate detailed situation on the consumption of energy and other energy resources.

2. Electricity generation and consumption in September 2022

Tab. 1: Production and consumption of electricity in September 2022 compared to September 2021

MWH	09-2021	09-2022	IX 2022 / IX 2021 %
Gross generation from power plants	445.230	460.036	3,33%
Gross generation from hydropower plants	5.945	9.029	51,88%
Gross generation from wind and solar	10.452	35.749	242,04%
Import	341.432	273.260	-19,97%
Export	335.516	323.551	-3,57%
Gross electricity available	467.543	454.523	-2,78%
Household	178.347	177.373	-0,55%
Commercial	73.508	80.182	9,08%
Industry	34.715	37.997	9,45%
Public lightening and other	2.924	3.021	3,30%
Consumers 220-110kv	38.172	7.672	-79,90%
Mining	7.755	8.711	12,33%
Electricity consumption	335.420	314.955	-6,10%
